

Perth[®] II

Recliner

versatile | responsive | sturdy

Furnishing Knowledge[®]

The responsive recliner that readily accommodates changing patient needs.

A new dimension in adaptability.

The Perth II Recliner is as functional as it is beautiful. Its seating provides ample room for patients of all body types and its sturdy construction safely accommodates up to 750 pounds. Easy to use, the recliner intuitively responds to changing treatment and patient needs. With a full range of standard options, including a tablet arm, IV pole, catheter hook and magazine pouch, the Perth II Recliner increases the flexibility and responsiveness that are paramount in healthcare environments.

The footrest tucks neatly away when not in use.

Stability is assured with central-locking casters that are convenient and intuitive to use.

Space is optimized with the 360-degree rotation that stays within the recliner's footprint to allow for corner use.

Durability is enhanced with Seam Saver™ protecting back seams from daily use, damage, and wear and tear, and extending the upholstery life.

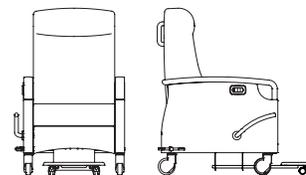

Perth® II Recliner

The Perth II Recliner is built to withstand the rigors of daily use. It offers easy-to-operate controls for optimum safety and maximum comfort. Caregivers appreciate the effortless 360-degree rotation, as well as the stability provided by the central-locking casters.

Designed by Daniel Cramer, the stylish Perth II Recliner complements the entire Perth product line to ensure aesthetic continuity within healthcare environments. It's an intuitive solution that combines style with purpose for maximum versatility.
